0

Looks great and is strong." 1

I have had TMobile service for 2 or 3 years now, and I am pretty happy with it. 1

The update procedure is difficult and cumbersome. 0

Disappointment.. I hate anything that goes in my ear. 0

Great software for Motorolas. 1

The delivery was on time. 1

Very easy to use. 1

Uncomfortable In the Ear, Don't use with LG VX9900 (EnV). 0

The volume switch rocketed out of the unit to a destination unknown. 0

1

It holds a charge for a long time, is reasonably comfortable under long-wearing conditions and the quality of sound is tremendous.

I'd like to return it. 0

The keyboard is really worthwhile in usefulness and is sturdy enough I don't expect any problems.

1

Verizon's bills, however, are difficult to understand even though their pricing plans are simple.

0

After charging overnight, these batteries work great. 1

You won't regret it! 1

I love this phone!. 1

A Disappointment. 0

Its not user friendly. 0

Unfortunately the ability to actually know you are receiving a call is a rather important feature and this phone is pitiful in that respect. 0

Then I exchanged for the same phone, even that had the same problem. 0

This results in the phone being either stuck at max volume or mute. 0

This PDA rocks. 1

It is super charged up for use as a small hybrid palmtop/camera/cellphone, and excels in those roles. 1

I would definitely recommend the Jabra BT250v for those who are looking for comfort, clarity and a great price!

1

I had Verizon 2 years ago and really liked their service. 1

Pretty piece of junk. 0

Plug was the wrong size. 0

Works as described. 1

1

This battery is an excellent bargain! 1

Defective crap. 0

I would have given no star if I was able. 0

I wear glasses and it fits fine with them. 1

The sound quality for the device is unacceptable.Unless you are in a really quiet area, you almost hear nothing.

0

I would not recommend this item to anyone. 0

The holster that arrived did not match the photo in the ad. 0

great...no problems at all!. 1

As an earlier review noted, plug in this charger and nothing happens. 0

This frog phone charm is adorable and very eye catching. 1  
You never know if you pushed it hard enough or the right number of times for the function you want or not. 0  
The sound is clear and the people I talk to on it are amazed at the quality too. 1  
I got the aluminum case for my new Palm VX and it worked really well--it has protected my handheld perfectly so far. 1  
very good product, well made. 1  
Mobile Phone Tools are a must have. 1  
I am very impressed with the job that Motorola did on the sturdiness of this phone. 1  
I received my orders well within the shipping timeframe, everything was in good working order and overall, I am very excited to have this source. 1  
The phone is sturdy and waterproof. 1  
I am not impressed with this and i would not recommend this item to anyone. 0  
My only complaint is the standard sound volume is a little low even when turned up to 5(of 5) 0  
Thanks again to Amazon for having the things I need for a good price! 1  
I ended up sliding it on the edge of my pants or back pockets instead. 1  
I had to go to a store and bought a new NOKIA phone which is working great. 1  
Works great!. 1  
REALLY UGLY. 0  
horrible, had to switch 3 times. 0  
The noise shield is incrediable. 1  
No real improvement. 0  
Razr Battery - Good buy. 1  
Keep up the good work Amazon!! 1  
They refuse to refund or replace. 0  
Unfortunately it's easy to accidentally activate them with the gentle-touch buttons if you accidentally touch the phone to your face while listening. 0  
So I basically threw my money out the window for nothing. 0  
Great case and price! 1  
All it took was one drop from about 6 inches above the kitchen counter and it was cracked.I am not impressed and I am not laughing. 0  
Bluetooth range is good - a few days ago I left my phone in the trunk, got a call, and carried the conversation without a hitch. 1  
Small, sleek, impressive looking, practical setup with ample storage in place. 1  
The eargels channel the sound directly into your ear and seem to increase the sound volume and clarity. 1  
none of the new ones have ever quite worked properly. 0  
I am glad I purchased it. 1  
I've missed numerous calls because of this reason. 0  
Perhaps my phone is defective, but people cannot hear me when I use this. 0  
Don't buy this product. 0  
sucked, most of the stuff does not work with my phone. 0  
No shifting, no bubbling, no peeling, not even a scratch, NOTHING! I couldn't be more happier with my new one for the Droid. 1  
Worst software ever used.... If I could give this zero stars I would. 0  
Trying to make a call on these is an exercise in frustration. 0  
The case is a flimsy piece of plastic and has no front or side protection whatsoever. 0  
I own a Jabra Earset and was very happy with it, but the sound quality, especially outgoing, on this is better. 1  
I love the camera, it's really pretty good quality. 1  
Thank you for such great service. 1  
Its a total package. 1  
The seller is very understanding and patient, I would definitely buy from them again. 1  
I give Wirefly 1 star.I will contact Cingular/AT&T; and inform them of this practice. 0  
It's AGGRAVATING! 0  
Great product for the price!. 1  
I have purchased these for both family and friends, and all enjoy their clarity and ease of use 1  
Virgin Wireless rocks and so does this cheap little phone! 1  
None of it works, just don't buy it. 0  
Muddy, low quality sound, and the casing around the wire's insert was poorly super glued and slid off. 0  
Please dont waste your money. 0  
All in all, I'm quite satisfied with this purchase. 1  
If you are looking for a good quality Motorola Headset keep looking, this isn't it. 0  
Yet Plantronics continues to use the same flawed charger design. 0  
Disapointing Results. 0  
Cumbersome design. 0  
Great it was new packaged nice works good, no problems and it came in less time then I expected!!!! 1  
Great Product. 1  
It's A PIECE OF CRAP! 0  
My experience was terrible..... This was my fourth bluetooth headset, and while it was much more comfortable than my last Jabra (which I HATED!!! 0  
This fixes all the problems. 1  
Worst ever. 0  
I am very happy 1  
I've had no trouble accessing the Internet, downloading ringtones or performing any of the functions. 1  
I can barely ever hear on it and am constantly saying "what?" 0  
The battery life is highly unacceptable. 0  
That company is a joke. 0  
It does everything the description said it would. 1  
Due to this happening on every call I was forced to stop using this headset. 0  
It works great with a car charger, especially if you cannot plug in two adapters at the same time. 1  
Verizon tech support walked my through a few procedures, none of which worked and I ended up having to do a hard re-set, wiping out all my data. 0  
Voice Quality, Signal Strength, Dropped Calls. 0  
It plays louder than any other speaker of this size; the price is so low that most would think the quality is lacking, however, it's not. 1  
Better than expected. 1  
It feels poorly constructed, the menus are difficult to navigate, and the buttons are so recessed that it is difficult to push them. 0  
Battery is holding up well. 1  
Also difficult to put on.I'd recommend avoiding this product. 0  
I only used it two days, and it wasn't always easy to hear with. 0  
I got the car charger and not even after a week the charger was broken...I went to plug it in and it started smoking. 0  
Sprint - terrible customer service. 0  
Linked to my phone without effort. 1

THey are so cool! 1  
Easy to use. 1  
Better Than New. 1  
What possesed me to get this junk, I have no idea... 0  
Piece of trash. 0  
A pretty good product. 1  
This is a great phone!. 1  
For the price on Amazon, it is an excellent product, which I would highly recommend. 1  
Their Research and Development division obviously knows what they're doing. 1  
The real killer is the volume, and of course it breaking. 0  
Those phones are working just fine now. 1  
I am more than happy with this product. 1  
Poor Construction. 0  
This is infuriating. 0  
Overall, I would recommend this phone over the new Walkman. 1  
Sprint charges for this service. 0  
It is cheap, and it feel and look just as cheap. 0  
It fits my ear well and is comfortable on. 1  
It doesn't work in Europe or Asia. 0  
clipping this to your belt will deffinitely make you feel like 50 cent's up-and-coming. 1  
I like design and look of Jabra behing the ear headsets and 5020 is pretty comfortable to wear 24 hours a day without pain in the ear. 1  
I was amazed at the quick arrival of the two original lg cell phone batteries and and at a fraction of the price. 1  
the worst phone from samsung...crap..... this crappy Samsung E715.. is the worst i have ever seen. 0  
the charger worked for about a week and then completely stopped charging my phone. 0  
Poor product. 0  
However I needed some better instructions. 0  
You need two hands to operate the screen.This software interface is decade old and cannot compete with new software designs. 0  
Worked very well paired with a Treo 700w and as a Skype headset on my PC (using a USB Bluetooth transceiver). 1  
Steer clear of this product and go with the genuine Palm replacementr pens, which come in a three-pack. 0  
DO NOT BUY DO NOT BUY IT SUCKS 0  
This is a great product.... sure beats using your fingers!. 1  
Plus, I seriously do not believe it is worth its steep price point. 0  
All the other cases I've tried normally fall apart after a few months but this one seems to be in for the long haul. 1  
Very Dissapointing Performance. 0  
Don't make the same mistake that I did and please don't buy this phone. 0  
This phone might well be the worst I've ever had in any brand. 0  
Case was more or less an extra that I originally put on but later discarded because it scratched my ear. 0  
I recommend iGo to anyone with different brand cell phones/mp3 players in the family. 1  
Don't bother - go to the store. 0  
I posted more detailed comments under the grey or black phone, but i have the Fire Red and it's a great color! 1  
I did not have any problem with this item and would order it again if needed. 1  
You get what you pay for I guess. 0  
Not only did the software do a great job of this, I could also make my own ringtones form my existing CDs without an internet connection. 1  
im surprised this is a good quality car charger and there's not much reviews about it. 1  
These are fabulous! 1  
However, BT headsets are currently not good for real time games like first-person shooters since the audio delay messes me up. 0  
I used bitpim (a free program you can find on the internet)to transfer data to the phone.The price of the cable was excellent. 1  
Disappointing accessory from a good manufacturer. 0  
Performed awful -- muffled, tinny incoming sound and severe echo for those on the other end of the call. 0  
Very wind-resistant. 1  
Obviously they have a terrible customer service, so you get what you pay for. 0  
They do not last forever, but is not overly expensive to replace.Easy to operate and the sound is much better than others I have tried. 1  
I contacted the company and they told me that, although the unit was still under warranty, if I couldn't produce my receipt I was out of luck. 0  
Linksys should have some way to exchange a bad phone for a refurb unit or something! 0  
Phone is sturdy as all nokia bar phones are. 1  
Great phone. 1  
When I placed my treo into the case, not only was it NOT snug, but there was A LOT of extra room on the sides. 0  
I'm pleased. 1  
Battery is terrible. 0  
I found the product to be easy to set up and use. 1  
The earpiece on this is too large or too heavy...it keeps falling out of my ear. 0  
Utter crap.. Sound quality is TERRIBLE. 0  
The charger arrived within the promised timeframe, but it did not work. 0  
No ear loop needed, it's tiny and the sound is great. 1  
Finally, after three or four times the spring of the latch broke and I could not use it any longer on the visor. 0  
The handsfree part works fine, but then the car tries to download the address book, and the Treo reboots.Overall, I still rate this device high. 1  
Talk about USELESS customer service. 0  
It felt too light and "tinny.". 0  
This does not fit the Palm Tungsten E2 and it broke the first time I tried to plug it in. 0  
I'm happy about this purchase- good quality and low price. 1  
I love the look and feel of Samsung flipphones. 1  
Its well-designed and very sharp -- the blue is a very nice color. 1  
Does everything it should and more. 1  
I could not recommend these more. 0  
Nice Sound. 1  
Looks good in the picture, but this case was a huge disappointment!! 0  
Much less than the jawbone I was going to replace it with. 1  
Setup went very smoothly. 1  
its extremely slow and takes forever to do anything with it. 0  
A must study for anyone interested in the "worst sins" of industrial design. 0  
The first thing that happened was that the tracking was off. 0  
It is well made, easy to access the phone and has a handy, detachable belt clip. 1  
Then I had to continue pairing it periodically since it somehow kept dropping. 0

Can't upload ringtones from a third party. 0  
Bluetooth does not work, phone locks up, screens just flash up and now it just makes calls randomly while in my pocket locked. 0  
Truly awful. 0  
It works fine on my Motorola 325 cellphone, and a lot better than the worn-out battery did. 1  
The volume for the ringer is REAL good (you have choices how loud). 1  
And none of the tones is acceptable. 0  
camera color balance is AWFUL. 0  
This product is clearly not ready for prime time, I don't care how cool it looks, if you can't tell a call is coming in it's worthless. 0  
I love the ringtones because they are so upbeat! 1  
Chinese Forgeries Abound!. 0  
Easy to pair with my Samsung Cell. 1  
The instructions didn't explain that a microphone jack could be used. 0  
i would advise to not purchase this item it never worked very well. 0  
Too bad you have to pay up to \$\$\$ a month for the service! 0  
Works well. 1  
The nokia CA-42 USB cable did not work with my phone. 0  
Clear crisp sound. 1  
I have to use the smallest earpieces provided, but it stays on pretty well. 1  
The biggest complaint I have is, the battery drains superfast. 0  
The design might be ergonomic in theory but I could not stand having these in my ear. 0  
Do NOT buy if you want to use the holster. 0  
The phone can also take great pictures and even video clips. 1  
It doesn't make you look cool. 0  
Because both ears are occupied, background is not distracting at all. 1  
Comfortable fit - you need your headset to be comfortable for at least an hour at a time, if not for an entire day. 1  
Also, the phone doesn't seem to accept anything except CBR mp3s, preferably ripped by Windows Media Player. 0  
You can't beat the price on these. 1  
\* Comes with a strong light that you can use to light up your camera shots, and even flash SOS signals (seriously)! 1  
lightweight and works well. 1  
So just beware. 0  
I love this cable - it allows me to connect any mini-USB device to my PC. 1  
So anyone near you will hear part of your conversation. 0  
This is cool because most cases are just open there allowing the screen to get all scratched up. 1  
I bought this phone as a replacement for my StarTac and have regretted it since. 0  
Appears to actually outperform the original battery from China that came with my V325i. 1  
Can't store anything but phone numbers to SIM. 0  
It lasts less than 30 minutes, if I actually try to use the phone.My wife has the same phone with the same problem. 0  
Poor quality. 0  
jabra ear gels "R" the best!. 1  
Not worth it. 0  
The phone crashed completely and now I have to get it replaced. 0  
It quit working after I'd used it for about 18 months, so I just purchased another one because this is the best headset I've ever owned. 1  
Unfortunately it will not recharge my iPhone 4s, despite connecting it from multiple power sources (iMac, external battery, wall outlet, etc). 0  
It was a great phone. 1  
if you simply want a small flip phone -- look elsewhere as the extra bells & whistles are mediocre. 0  
Good value, works fine - power via USB, car, or wall outlet. 1  
My phone doesn't slide around my car now and the grip prevents my phone from slipping out of my hand. 1  
This is simply the BEST bluetooth headset for sound quality! 1  
Think it over when you plan to own this one!This sure is the last MOTO phone for me! 0  
In the span of an hour, I had two people exclaim "Whoa - is that the new phone on TV?!" 1  
I have always used corded headsets and the freedom from the wireless is very helpful. 1  
This case has passed the one year mark and while it shows signs of wear, it is 100% functional. 1  
Other than that, the leather is nice and soft; the fit is very tight; the cut out for the face is a good shape. 1  
It has everything I need and I couldn't ask for more. 1  
After receiving and using the product for just 2 days it broke. 0  
This product is great... it makes working a lot easier I can go to the copier while waiting on hold for something. 1  
None of the three sizes they sent with the headset would stay in my ears. 0  
T-Mobile has the best customer service anywhere. 1  
Arrived quickly and much less expensive than others being sold. 1  
We have tried 2 units and they both failed within 2 months.. Pros 0  
Provides good protection and looks classy, too. 1  
Krussel Always good. 1  
The tracfonewebsite is user friendly and makes it easy to activate, etc. 1  
The design is very good. 1  
I great reception all the time. 1  
I would highly recommend this product. 1  
Couldn't use the unit with sunglasses, not good in Texas! 0  
It dit not work most of the time with my Nokia 5320. 0  
Bought mainly for the charger, which broke soon after purchasing. 0  
If you like a loud buzzing to override all your conversations, then this phone is for you! 0  
Fantastic buy and will get again for whatever my next phone is 1  
stay away from this store, be careful. 0  
This BlueAnt Supertooth hands-free phone speaker is AWESOME. 1  
Does not fit. 0  
.... Item arrived quickly and works great with my Metro PCS Samsung SCH-r450 slider phone and Sony Premium Sound in ear plugs. 1  
It is light, has plenty of battery capacity, and is very confortable to wear for somewhat extended periods of time. 1  
disappointing. 0  
Blue Ant is easy to use. 1  
Cheap but hey it works.. Was pleasantly suprised given the low cost of this item. 1  
The camera on the phone may be used as a dustpan when indoors... I'd rather be using a disposable then this. 0  
Then a few days later the a puff of smoke came out of the phone while in use. 0  
It's very convenient and simple to use - gets job done & makes the car ride so much smoother. 1  
The nano stated it.My son was dissapointed. 0  
The sound quality is excellent as well. 1

Its the best headset I have used. 1  
Would not recommend. 0  
They have been around for years and carries the highest quality of anti-glare screen protector that I have found to date. 1  
Just what I wanted. 1  
This particular model would not work with my Motorola Q smartphone. 0  
wont work right or atleast for me. 0  
in addition it feels & looks as if the phone is all lightweight cheap plastic. 0  
But now that it is "out of warranty" the same problems reoccur.Bottom line... put your money somewhere else... Cingular will not support it. 0  
I really wanted the Plantronics 510 to be the right one, but it has too many issues for me.The good 0  
Great product. 1  
Crisp and Clear. 1  
AFter the first charge kept going dead after 12 minutes. 0  
VERY cheap plastic, creaks like an old wooden floor. 0  
I get absolutely horrible reception in my apartment, where with other phones I have not had this problem. 0  
The reception has been generally good. 1  
Excellent sound, battery life and inconspicuous to boot!. 1  
Great bluetooth!. 1  
I highly recommend this case. 1  
WORTHWHILE. 1  
This is a great deal. 1  
After my phone got to be about a year old, it's been slowly breaking despite much care on my part. 0  
I am sorry I made this purchase. 0  
I bought these hoping I could make my Bluetooth headset fit better but these things made it impossible to wear. 0  
Treo and T-Mobile refused to replace it again and forced me to buy another phone without any kind of upgrade discount. 0  
It was horrible!. 0  
I don't think it would hold it too securely on your belt. 0  
This allows the possibility of double booking for the same date and time after the first. 0  
They work about 2 weeks then break. 0  
It is simple to use and I like it. 1  
It's a great tool for entertainment, communication, and data management.Oh, be sure to use ActiveSync 4.2 for optimal data synchronization results! 1  
I can't use this case because the smell is disgusting. 0  
NOT WHAT I WANTED. 0  
I own 2 of these cases and would order another. 1  
Great Phone. 1  
I bought this battery with a coupon from Amazon and I'm very happy with my purchase. 1  
The internet access was fine, it the rare instance that it worked. 0  
Perfect for the PS3. 1  
Five star Plus, plus. 1  
A good quality bargain.. I bought this after I bought a cheapy from Big Lots that sounded awful and people on the other end couldn't hear me. 1  
\$50 Down the drain. 0  
I tried talking real loud but shouting on the telephone gets old and I was still told it wasn't great. 0  
Good , works fine. 1  
For the price this was a great deal. 1  
Great price, too! 1  
If there is a wind, it is completely useless. 0  
Yes it's shiny on front side - and I love it! 1  
Does Not Work. 0  
At first I thought I was getting a good deal at \$7.44, until I plugged it into my phone (V3c Razr). 0  
The reception through this headset is excellent. 1  
2 thumbs up to this seller 1  
I have a Verizon LG phone and they work well together, good reception and range that exceeds 20 feet line of sight. 1  
Improper description.... I had to return it. 0  
#1 It Works - #2 It is Comfortable. 1  
Battery charge-life is quite long. 1  
The Jabra EarGels fit my ears very well. 1  
Battery has no life. 0  
I checked everywhere and there is no feature for it which is really disappointing. 0  
Product is exactly as described. 1  
Gets a signal when other Verizon phones won't. 1  
Doesn't do the job. 0  
I would recommend it. 1  
Plan on ordering from them again and again. 1  
That being said, for a phone, the camera is very nice; many cool effects to play with, and video is decent as well. 1  
I have been very satisfied with this cell phone from day one. 1  
They keep getting better and better (this is my third one and I've had numerous Palms too). 1  
Awkward to use and unreliable. 0  
The shipping time was also very quick! 1  
Not as good as I had hoped. 0  
Good case!. 1  
Doesn't Work. 0  
Really good product. 1  
Unfortunately it did not work. 0  
All three broke within two months of use. 0  
dont buy it. 0  
My father has the V265, and the battery is dying. 0  
However, the ear pads come off easily and after only one week I lost one. 0  
The calls drop, the phone comes on and off at will, the screen goes black and the worst of all it stops ringing intermittently. 0  
Horrible, horrible protector. 0  
I don't like this Nokia either. 0  
Reaching for the bottom row is uncomfortable, and the send and end keys are not where I expect them to be.3. 0  
I have bought this Nokia cell phone a few weeks ago and it was a nightmare. 0  
It would take too long to describe how bad my customer service experience has been with Amazon. 0  
the only VERY DISAPPOINTING thing was there was NO SPEAKERPHONE!!!! 0  
Terrible.. My car will not accept this cassette. 0

Product is useless, since it does not have enough charging current to charge the 2 cellphones I was planning to use it with. 0  
It's not what it says it is. 0  
Stay Away From the Q!. 0  
Used and dirty. 0  
Very unreliable service from T-mobile ! 0  
Not good enough for the price. 0  
I bought two of them and neither will charge. 0  
It looks very nice. 1  
This is an excellent tool, especially when paired with your phone's auto-answer. 1  
I have read other's reviews here but I haven't had any problem with it. 1  
These products cover up the important light sensor above the ear outlet. 0  
Comfortable in my hand. 1  
Just does not work. 0  
Poor Reliability. 0  
(It works!) 1  
If I take a picture, the battery drops a bar, and starts beeping, letting me know its dieing. 0  
Terrible product, and waste of money! 0  
Last time buying from you. 0  
It was a waste of my money. 0  
So far it has worked like a charm. 1  
I have only had it for a few weeks, but so far, so good. 1  
But, in any case, the best part is, you can download these pictures to your laptop using IR, or even send pictures from your laptop to the phone. 1  
Would recommend this item. 1  
It's been my choice headset for years.Great sound; good volume; good noise cancellation. 1  
Nice case, feels good in your hands. 1  
The item received was Counterfeit. 0  
Just really good.. So far, probably the best BT headset I have ever had. 1  
Works fine. 1  
I received my headset in good time and was happy with it. 1  
I was very pleased to see that I could replace my well travled swivel holster for my Blackberry flip. 1  
My sister has one also and she loves it. 1  
Good Quality. 1  
This is by far the worst purchase I've made on Amazon. 0  
Excellent dual-purpose headset. 1  
Excellent!. 1  
Does not work for listening to music with the cingular 8125. 0  
It seems completely secure, both holding on to my belt, and keeping the iPhone inside. 1  
The bottown line...another worthless, cheap gimmick from Sprint. 0  
Having trouble with volume. 0  
The only good thing was that it fits comfortably on small ears. 1  
WARNING - DO NOT BUY!!!. 0  
I am pairing this with my iphone, and I could not be happier with it so far. 1  
When it opens, the battery connection is broken and the device is turned off. 0  
I didn't want the clip going over the top of my ear, causing discomfort. 0  
Best headset ever!!!. 1
